We will only execute branding part as identified in scope of work shown in the ppt.

Color variations will be 19%-20% in actual execution of stall then what is projected in the design. This is because media differs from element to element ie wood /carpet /paint/vinyl/ acrylic/flex tiles are different medias and have different textures, different opacity surfaces. There will definitely exist 19-20% variation in different medias. Above all on bought out items nearest color shades will be matched.

We do not commit any particular brand for any electronical devices or any other elements are on rental basis.

Artwork Should be provided atleast one week before possession date from your end.

All products and machinery installation is not in our scope of work.
