HDPE Pipes

Our company is equipped with a fully integrated in-house HDPE extrusion facility featuring advanced extrusion machines capable of manufacturing pipes ranging from 15 mm to 200 mm in diameter. These machines are designed to deliver precision, consistency, and high productivity across wide ranges of applications.

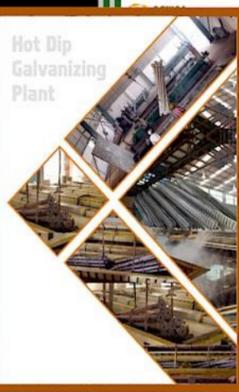

We maintain a monthly production capacity of approximately 400 tons, enabling us to efficiently meet bulk and customized project requirements while ensuring timely delivery.

All our HDPE products are BIS approved and manufactured in accordance with the relevant Indian and international standards, guaranteeing superior quality and performance. To uphold the highest manufacturing benchmarks, our facility houses a dedicated in-house testing laboratory equipped with modern testing instruments for continuous monitoring of raw materials, process parameters, and finished product quality.

Through stringent quality control, advanced machinery, and skilled technical expertise, we ensure that every product delivered from our facility meets precision, durability, and reliability standards expected by our clients across various sectors.
