Balance of System (BOS) Kits

Our BOS Kits provide a complete, ready-to-install solution for solar projects, ensuring installers have all the essential components required for a successful setup. Whether for ground-mounting installations or rooftop solar systems, our BOS Kits include:

Technical Specifications

- **Wiring and Connectors** - High-quality cables and connectors for secure, efficient connections.
- **Earthing Solutions** - Comprehensive grounding components to ensure safety and performance.
- **HDPE Pipes** - Durable and flexible for water management in solar water-purging installations.
- **Agricultural Sprayers** - Specialized parts for seamless integration with solar-powered agricultural systems.
- **AC/DC Distribution Boxes** - Pre-assembled and tested boxes for smooth control and distribution of electrical power.
